EXPERIENCE

Software Engineer

Persistent Systems (July 2022 – Present)

- Created an intuitive platform for employees to explore internal job openings and enhance their skill profiles.
- Implemented a responsive UI design, ensuring seamless navigation.
- Conducted extensive testing to guarantee cross-browser compatibility and responsive design.
- Contributed to regular team meetings and collaborated closely with backend developers to establish efficient data retrieval processes.

Intern

Persistent Systems (Jan 2022 to July 2022)

- Employed HTML5, CSS3, and JavaScript to build interac-tive and visually appealing web pages.
- Designed and implemented user interfaces using React.js to enhance user experience and responsiveness.
- Integrated third-party APIs to enhance functionality and features of web applications.

PERSONAL PROJECTS

1) Portfolio website 🔗

Exquisite portfolio website showcasing my diverse range of projects, skills through immersive design and seamless user experience

2) Skill Geek - EdTech Platform 🔗

- Developed a responsive and fully functional ed-tech platform that enables users to seamlessly create, consume and rate educational content with proper authentication and authorization.
- Learners can rate courses and provide feedback while Instructors can see their course analytics and earnings which facilitates a transparent and informed learning community.
- Implemented Razorpay payment integration on this platform.
